Fixed Penalty

The concept of a Fixed Penalty is to allow competitors to remain in the event even though they have been unable to complete certain Selective and Road Sections that would normally result in exclusion. They may continue although severely sanctioned by time penalties.

A Fixed Penalty of 2 hours will be applied to competitors who fail to complete a Selective Sections (SS) within the Maximum Time Allowed for that section.

The total time attributed to a competitor to whom the Fixed Penalty applies, for each leg, will be calculated by adding together the Maximum Time Allowed for the SS and/or Road Sections (RS) not covered, increased by the Fixed Penalty for missing the section(s) plus the penalty for missing any Passage Controls (2 hours for each PC) plus any other penalties already incurred by the competitor in specific cases as summarised in these Supplementary Regulations (ART 26P)

Example:

A competitor crashes on SS and cannot continue the SS which has a Maximum Time Allowed of 3 hrs. He/She has passed one PC but not arrived at the second PC. At the end of the SS there is a Road Section of 45 kms with a Target Time of 35 minutes. His/Her total penalties will be as follows:

SS – Maximum Time Allowed 3hrs Fixed Penalty for SS 2 hrs

RS not covered – Target Time 35 min

Fixed Penalty for RS 2hrs

TOTAL PENALTIES FOR THE LEG 7hrs 35 min

However, the competitor may continue in the rally providing he/she can make the start of the next Leg

Road Section Penalties

The Target Time for each Road Section is given in the Road Books and on the Time Cards. Lateness on an RS will be penalised at 1 minute for each minute late up to a maximum of 30 minutes lateness at the TC. Lateness in excess of 30 minutes will incur the Fixed Penalty of 2 hours.

Should the Steward consider the worst time actually set to be abnormal they may choose as a reference time from among the next four worst times set, the one they feel to be most suitable.

Any rider which was responsible, or partly responsible for the stopping of the rally, cannot under any circumstances benefit from this measure. Any such rider will therefore be credited with the actual time, which it may have set, if this is greater than the imaginary time attributed to the other riders.
